repon7253@gmail.com | +8801731-019621 | Rangpur, Bangladesh

Career objective

Full-Stack Developer with strong hands-on experience in building scalable web applications using Node.js, Express, MongoDB, PostgreSQL, TypeScript, React, and Next.js. Experienced in backend logic, REST API design, and authentication systems, with solid frontend implementation skills.

Technical Skills

- **Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript, React.js, Next.js, Redux, Framer Motion, NextAuth, ShadCn/UI, Origin UI
- **Backend:** Node.js, Express.js, MongoDB, Mongoose, SQL, PostgreSQL, Prisma, JWT, Nodemailer, Redis, Passport.js, SSLCommerz, Stripe
- **Version Control and Deployment:** Github, Vscod, Postman, Vite, AI Driven Development Tools, Vercel, Netlify
- **API & Data Management:** Experienced with REST APIs, Axios, RTK Query, and React Query.
- **AI & Automation:** Hands-on experience integrating AI services using OpenRouter and AI-driven development tools to enhance application functionality.

Soft Skills

- Problem Solving, Time Management, Quick Learner, Self-Motivated

Projects

RideFlow – Ride Booking System

[Live](#) | [Github: Client](#) | [Server](#)

Technology: React, Redux, RTK Query, Node.js, Express.js, MongoDB, Redis, Mongoose, TypeScript, Shadcn, Nodemailer

Key Features:

- Developed full-stack ride booking platform using React, Redux, Node.js, Express.js, MongoDB, and TypeScript
- Designed and implemented RESTful APIs for ride management, user authentication, and driver operations
- Built JWT-based authentication system with role-based authorization for Admin, Driver, and Rider roles
- Integrated Redux and RTK Query for efficient state management and API communication
- Created scalable database schema using MongoDB and Mongoose for data relationships

EventsHub – Event Participation Platform

[Live](#) | [Github: Client](#) | [Server](#)

Technology: Next.js, Node.js, Express.js, PostgreSQL, Prisma, TypeScript, Shadcn, Nodemailer, SSLCommerz

Key Features:

- Built event discovery platform using Next.js, Node.js, Express.js, PostgreSQL, Prisma, and TypeScript
- Developed RESTful backend APIs handling user registration, event creation, and participation management
- Integrated SSLCommerz payment gateway for secure payment processing
- Implemented advanced search and filtering functionality using PostgreSQL queries
- Utilized Next.js server-side rendering for improved performance and SEO

Certification

- Complete Web Development Course at Programming Hero (April 2025 – December 2025) [Certificate-Link](#)
